# LEAN AWARENESS WORKSHOP

SEPT 26  
2017

## About our workshop

Lean establishes a systemic approach to eliminating wastes and creating flow through the whole company. It also helps you develop and implement a long-term plan to streamline your operations for success.

### Topics covered include:

- Lean principles
- The eight wastes and Lean tools
- The results of implementing Lean
- How to develop a road map for implementation
- The benefits of Lean practices: improvements in lead time, delivery, quality and cost metrics.

### Who should attend?

Equally accessible to senior management, office staff and the full labor force, the Lean Awareness Workshop provides everyone with a common understanding of how Lean principles can be used to dramatically improve operations.
